HUPEH GOVERNOR'S MURDER VINDICATED

DOCK WORKERS HONOUR RETIRING MANAGER

Presentation To Mr. K.E. Greig At Taikoo Club

A very pleasant afternoon was spent by members of the staff of the Taikoo Dockyard yesterday when the Taikoo Chinese Athletic Association held their first annual sports, and the opportunity was taken to present Mr. K. E. Greig, the retiring manager of the Dockyard, with a scroll of honour on the eve of his departure for home.

In the course of his speech Mr. Lam Chung-hoo said that this was the first occasion on which the Chinese and European Staff mixed together at a party and he expressed the hope that this would be followed by many more such functions in the future.

CHAIRMAN'S SPEECH

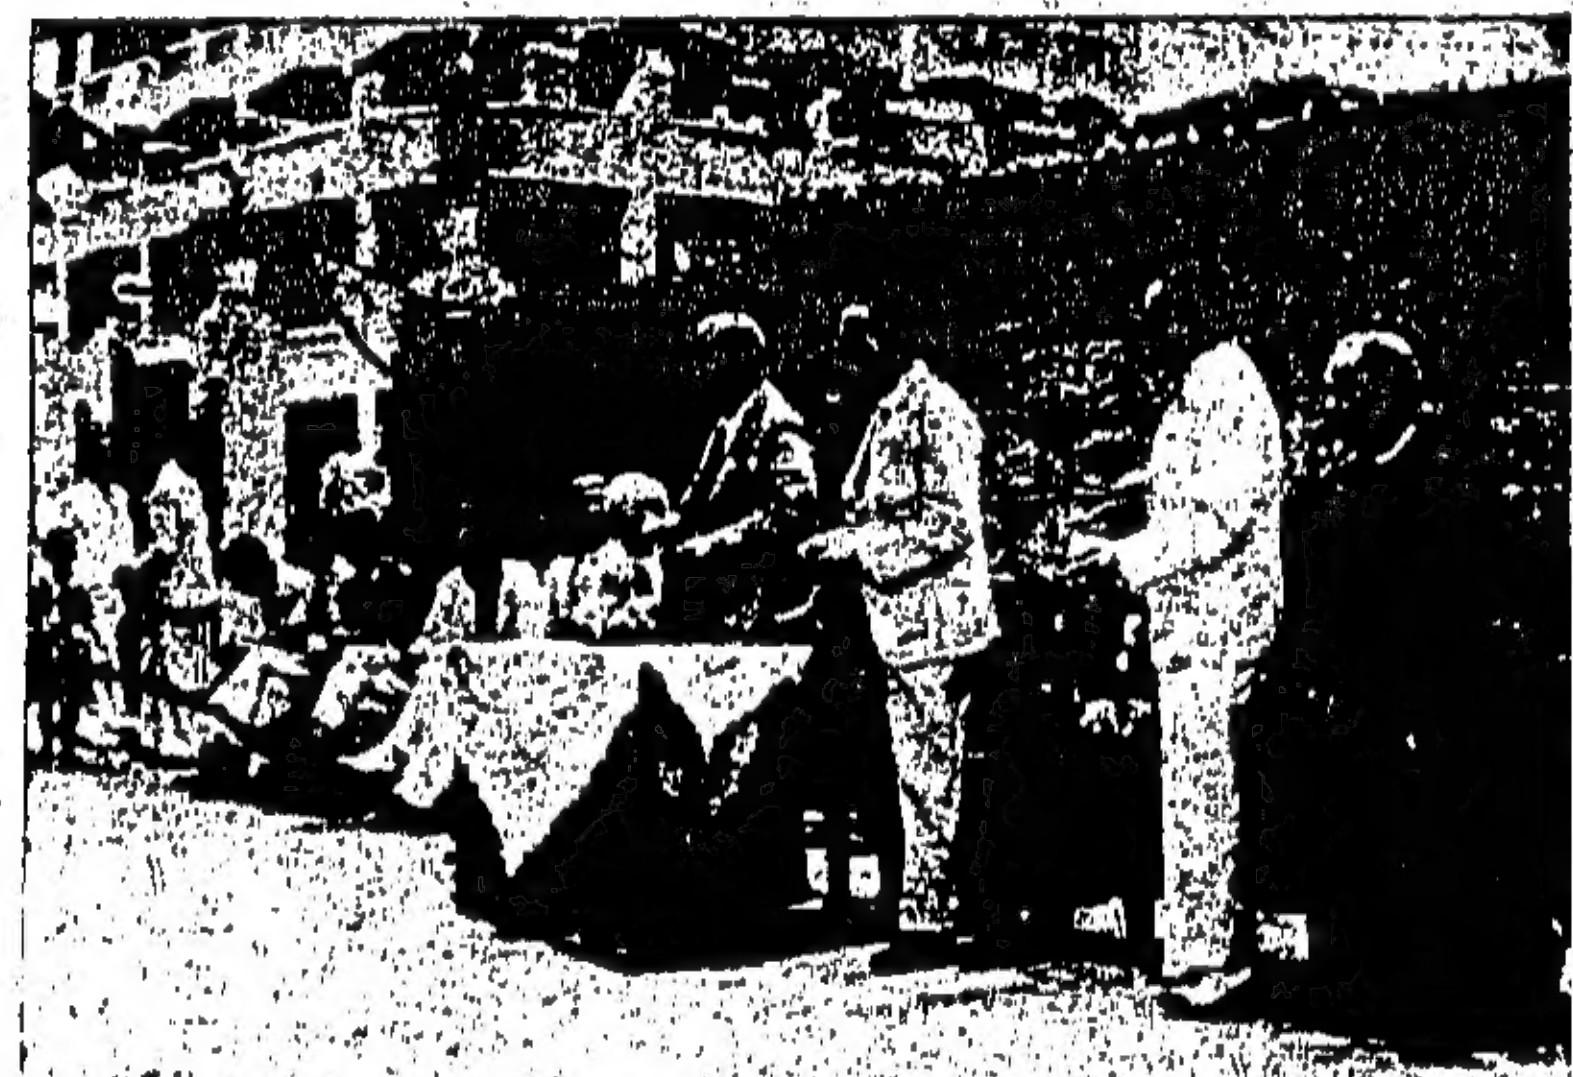

Addressing the gathering the chairman said:—

We are here to-day to bid farewell to Mr. K. E. Greig on the occasion of his impending departure for home on retirement after 28 years service.

On behalf of the Association I beg to thank our European fellow employees for joining us here to-day to bid Mr. Greig farewell. It is a fact that this is the first occasion, since the Dockyard came into being more than 30 years ago, on which Chinese and European employees have gathered together in one party, and in order to bring about closer friendship between the two staffs, I wish we could have more of such gatherings in future.

Since we have been working under Mr. Greig we have received from him vast favours and great kindness. He is a kind-hearted and obliging gentleman and is approachable to every one who wants his advice or instructions.

BOYS CLUBS' ASSOCIATION

Charity Shows At The King's

"The funds of the Boys' Club Association must have swelled considerably as the result of the gala performance of "Pennies From Heaven" at the King's Theatre last night when the ordinary prices of admission were increased considerably, the difference between the ordinary prices and the increased figures being handed over to the Association.

As an added attraction the band of the Seaforth Highlanders rendered an excellent programme of music.

His Excellency the Officer Administering the Government, Mr. N. L. Smith, C.M.G., and party attended and amongst those present were a number of the Colony's leading residents.

The film, starring Bing Crosby and Madge Evans, proved to be excellent entertainment and the programme rendered by the band was as follows:—

Excerpts from Opera, "La Traviata"; Cornet Solo, "The Lost Chord"; Selection of Harry Lauder's Songs; Tone Poem, "Finlandia"; Scotland for Ever.

Conductor: Mr. E. G. Baker, A.R.C.M.

HOLIDAYS IN HONG KONG

Reader Supports Our Suggestion

(To The Editor, "The Hong Kong Daily Press").

Dear Sir,—I read the article in your issue of this morning, on the subject of spending one's holidays in Hong Kong, with considerable interest and as one of the very few who has always "summered" here, I can heartily endorse the suggestion put forward by your paper.

Last summer I was fortunate enough to be given the use of a bungalow in Shatin, and the year before I spent two weeks in Cheung Chow, and I can honestly say that I enjoyed both holidays as much as I did a trip to Shanghai and Japan a few years back—before we had the depression on us.

The suggestion about the golf links in Deep Water Bay was particularly good and if the arrangement can be made for guests at the Repulse Bay Hotel, during certain months of the year, to be given permission to use the course, for a nominal fee during the slack hours, it would be very welcome as facilities for golfing are so deplorably poor in Hong Kong.

There are many places that one can go to for an inexpensive yet thoroughly enjoyable holiday here and as you mentioned in your article anybody who spends his leave in the Colony helps to keep the money inside Hong Kong.

Yours, etc.,
"HOLIDAY HERE."

Shanghai, June 6.

REVOLT AGAINST TOWNSEND

New York, June 6.
Rebelling against the frequent attacks on President Franklin D. Roosevelt by Mr. Townsend, author of the "pensions-for-all-at-sixty plan," twelve high officials of his organisation have resigned.

AOYAMA CASE IN SWATOW

Negotiations Bear No Fruit

Canton, June 6.
After completing their investigation into the Kiyoshi Aoyama case in Swatow, Dr. Andrew S. F. Lin, secretary of the special delegate of the Ministry of Foreign Affairs, and Mr. Sadaji Yoshitake, acting Japanese consul in Shantien, returned here to-day.

As negotiations in Swatow did not bear any result the matter will be settled in Canton.

Three Japanese warships in Swatow are still there. Mayor Huang Ping-hsin of Swatow has urged Japanese Consul Selchiro Yamazaki to withdraw the destroyers, but his efforts are of no avail.

Italian Operatic Music Concert

A very pleasant concert of Italian operatic music was given by members of the Choral Group under the able directorship of Maestro Eliseo Guadagni on Saturday night at Club de Recreio.

A most ambitious programme was presented, and the concert opened with three numbers by the Choir, the well-known Silver

Swan (Gibson), Al Lume Delle Stelle (Marenzio) and a Canzonetta by Vecchi, all given with intelligence and musical feeling. Henry Talbot sang Schubert's lovely Serenade, and gave a sacred Hebrew Song.

Two lovely numbers from Il Trovatore came next, most excellently interpreted by Miss C. Pang and Mr. D'Aquino. Miss Pang has a sweet contralto with very good upper notes.

"Bourree" played by that skillful violinist, Miss Prue Lewis, proved so acceptable to the audience that an encore was demanded, and she returned to the platform to delight her audience with the Beethoven Minuet.

Mr. D'Aquino sang two solos, of which the latter, "Princessita" by Padilla, was undoubtedly the gem of the whole concert. It was sung with exquisite sympathy and delicacy, and was rapturously applauded. The audience tried very hard to get Mr. D'Aquino to give

New Hospital For Children

The new Precious Blood Children's Hospital, the first of its kind in the Colony, erected solely for the welfare and protection of poor children in Kowloon and the New Territories, was officially opened by the Hon. Dr. A. R. Wellington, C.M.G. (Director of Medical Services) on Saturday afternoon.

The opening of this new hospital probably marked the last official duty of the Hon. Dr. Wellington, who is leaving the Colony on retirement on Friday, June 11, aboard the R.M.S. Empress of Japan, accompanied by Mrs. Wellington.

The new building, which is situated at Castle Peak Road, Kowloon, is a three and a half storeys structure of cement concrete, and has been built at an estimated cost of \$80,000, which was raised entirely through the efforts of the Hospital Committee and Sisters headed by the Chairman Mr. Nicholas Tsang Kwong with Mr. Chan Wai-chuen as Hon. Secretary.

This hospital has accommodation for about 100 persons. There are three big public wards, two for (Continued on Back Page)

INQUIRIES PENDING

No definite date for the inquiry into the Dojima Maru explosion has been fixed, though it is expected that the case will be opened in the course of the coming week by Mr. W. Schofield at the Central Magistracy. An inquiry, is also pending, into the tragedy at Yau-mat when seven people were killed as a result of a piling tower collapsing. It is understood that some days will elapse before the police are able to give their full report on this affair.

A ROGUE OUTWITTED

"Mr. X," a fortnight ago, was approached by Ng Kam-shu, an acquaintance, and a stranger Liu Kam-ming, who told him that they were forged bank note dealers. The latter informed "Mr. X" that in his "respectable position" he should be able to dispose of forged notes to a total value of \$10,000 to \$15,000 a month. Lui also said that he had a number of forged notes in his possession at the time and that he would sell them to "Mr. X" for half the value.
"Mr. X" was persuaded to buy \$200 worth of the notes from Lui, and the meeting then broke up. "Mr. X" then informed the police of this transaction.
On June 1, "Mr. X" met Ng Kam-shu by appointment and said that he could only raise \$50. Ng accepted the sum and agreed to take a note for the rest of the forgeries.

POLICE WAITING

Three days later Ng took "Mr. X" to Prince's Building where he said he would deliver the rest of the order. On reaching there, however, he told "Mr. X" that his friend Lui had not turned up. Little did he know that the police were waiting for him outside the building, and happy in the thought that he had succeeded in defrauding "Mr. X," Ng went away, only to walk into the arms of the law.
There was a sequel before Mr. E. Himsforth at the Kowloon Magistracy on Saturday morning when Ng Kam-shu was charged with conspiring to defraud.
Chief Detective Inspector Carey who prosecuted said defendant had evidently applied one of the old tricks to defraud "Mr. X." He added that defendant did not have any forged notes in his possession at any time.
A fine of \$100 or two months' hard labour was imposed.

COURT CASES IN BRIEF

A fine of 15 cents was imposed on Wong Tong, aged 30, on the charge of using the swing at the Children's Playground, Salisbury Road, on Friday and thus depriving the children of their privilege. It was stated that the man had been twice warned by a constable to go away but he ignored the warning. A caution was also administered.

When Chin Ling, aged 28, was brought before Mr. K. M. A. Barnett at the Kowloon Magistracy on Saturday on the charge of snatching a handbag from Mrs. Wagner at Cameron Road on Friday, it was stated that he had been found unfit for a caning. He was, therefore, sent to prison for four months.

BACK TO HIS OLD TRICKS

A burglary charge was preferred against Wong Shing, aged 30, unemployed, when he appeared before Mr. E. Himsforth at the Kowloon Magistracy on Saturday.
Detective-Sergt. Wallingford told the Court that complainant, Fung Fai, residing at No. 298, Cheung Sha Wan Road, was disturbed from her sleep by some noise in the kitchen. She got up to investigate and met defendant face to face in the corridor and raised the alarm. Two constables who were on duty near the vicinity heard the shout, and on going to see what was the matter, saw defendant coming out of the dwelling.
Just before his arrest, defendant was seen throwing away a chisel, which he had used to gain entrance to the house.
Defendant had 10 previous convictions against him, four of which were for burglary. It was also revealed that Wong had been released from prison only eight days previously. He was sentenced to six months' imprisonment.

THEFT FROM LINER

Ho Fat, a 30-year-old unemployed was charged before Mr. K. M. A. Barnett at the Kowloon Magistracy on Saturday with the theft of two travelling suit cases from the R.M.S. Empress of Japan at the Kowloon Wharf. The owner of the cases was Mr. C. F. Hayder, electrical engineer of the liner.
Detective-Sergt. Hutchinson asked for the case to be remanded till May 10, as the vessel would not be returning to the Colony till Wednesday.

MANCHURIA AND ABYSSINIA

Imperial Conference Discussions

London, June 4.
The principal delegates to the Imperial Conference, it is understood, to-day reviewed the repercussions attending the League of Nations' apparent failure in respect to the Manchuria and Abyssinia affairs.
The Conference stated that in any reform of the Covenant, considerable attention should be paid to Article 16 relating to Sanctions. There was general agreement that everything should be done from the Empire's standpoint to keep the League alive, and also to remove obstacles which are preventing certain nations entering or re-joining the League.

COMMITTEE REPORTS

No definite decisions were reached regarding League reform, but discussions may continue next week. It is understood the question of mandates was not touched. The Conference has practically finished its general business and is holding its final sessions on June 15, the final plenary session of the Conference being definitely fixed for that date.

At least two Dominion Prime Ministers are expected to leave for home that week and others will follow shortly afterwards. Other ministers with their delegations are likely to remain in England for some time to continue bi-lateral conversations in regard to trade and other matters.

The various committees are expected to finish their work this week-end, and the first of these reports should come before the Conference on Monday.

The Conference will probably devote the whole of next week to the consideration of committee reports.

FAKIR OF IPI STILL DEFLANT

North-West Frontier Campaign

Simla, June 5.
Driven from his refuge and abandoned by many of his followers, the Fakir of Ipi, prime cause of the extensive military operations on the North-West Frontier, is reported to be making a fresh move to continue the opposition to the British forces.
It is understood that the Fakir has sent a gang to stir up trouble in the region between Dandil and Idak, about 25 miles west of Bannu, in an endeavour to prolong hostilities.

The First Indian Infantry Brigade, together with First Indian Division Headquarters under Major-General E. de Burgh, have advanced down the Sham Algad to Madamir Kalai, where camp has been established without incident or opposition.

Delegates representing part of the Mahsud tribe, in whose territory the Fakir has taken refuge, presented themselves at Madamir Kalai and expressed friendly sentiments.

Meanwhile, it was revealed to-day that a number of planes raided a hostile tribal stronghold on the Frontier on Thursday, when the time limit expired for the rebels to return four girls they had kidnapped recently.

As a result of the bombing, one girl was released and the other three are reported alive and safe.

"End The War Against Children In Spain"

London, June 5.
"End the war against children in Spain" was one of the slogans shouted by a mob of about 300 Communists who forced their way into the House of Commons yesterday afternoon.

The House was sitting when the mob, which had collected in Westminster, suddenly forced their way past the two or three policemen outside Parliament and surged into the House.

The invasion threw the Chamber into an uproar, the agitators continuing to shout demands in connection with the Spanish civil war.

Attempts to quiet the mob by the Speaker and other M.P.s having failed, the police were summoned and ejected the demonstrators.

TRIBUTE TO THE KING

Epsom Race Course Gathering

London, June 4.
A touching tribute to His Majesty the King was paid at Epsom course to-day, when Their Majesties were present to see the main event, the Oaks.

As Their Majesties walked towards the paddock to inspect the runners, a choir composed of crippled ex-Servicemen on crutches sang "Gentlemen, The King," a song made famous by the actress, Cecilley Courtneidge.

Men standing hatless near the rails saluted, and the King smilingly raised his hat in response.

Steve Donoghue, riding Sir Victor Sassoon's Exhibitionist, won the Oaks for the first time. F. Dennis, on Sweet Content was second, with Lord Astor's Sculpture third. The betting was 3 to 1 Exhibitionist, 33 to 1 Sweet Content and 20 to 1 Sculpture.

PROTESTANTISM IN AUSTRIA

Steady Growth

Vienna, June 5.
That Protestantism during the last few years has gained considerable ground in almost exclusively Catholic Austria is revealed by statistics cited by the President of the Evangelical Church Council of Vienna, Dr. Capesius.

According to Dr. Capesius, the annual increase of members of the Protestant Church has averaged about 3,000 during the last few years.

The peak year was 194, when the number of Austrian Protestants increased by 23,500.

The total number of Protestants now living in Austria is roughly 320,000.

Political, rather than religious reasons, are responsible for the increase, says the "Reichspost."

RABAU TRAGEDY

Briton Believed Killed

Canberra, June 5.
A horrible fate is believed to have overtaken an Englishman named Elworthy in Rabaul, the chief port of the New Guinea Islands, in the earthquake which shook the island.

Elworthy, who was employed by the local electric light company, was last seen taking photographs on the volcano when it suddenly erupted.

Since then he has been missing and it is feared he perished in the lava and rocks which were hurled from the crater.

Earlier reports that the town has been destroyed are now proved to have been imaginary following receipt in Canberra of official reports from the Administrator of New Guinea, Brigadier-General W. R. McNicoll.

The Administrator reports that the buildings in Rabaul, with a few exceptions, were unharmed by the earthquake.

First reports, received in Shanghai from Sydney, said that the town had been destroyed by an earthquake and tidal wave, which sank or blew away three steamers.

PAYMENTS TO PRISONERS

London, June 4.
The payment of wages to prisoners is to be introduced in the three convict prisons of Chelmsford, Parkhurst and Dartmoor, according to an announcement made by Sir Samuel Hoare in the House of Commons to-day.

Sir Samuel explained that the experiment of allowing a prisoner certain privileges on entering prison and withdrawing them in the case of misconduct had proved so successful that men in the three prisons mentioned were given the opportunity of earning wages, with which to purchase such luxuries as cigarettes.

SHELLING IN ALMERIA

A graphic description of the results of the shelling of Almeria by German warships as retaliation for the bombing of the Deutschland is given by the special correspondent of the "Daily Telegraph" who was sent to the town for the purpose of investigating damage.

U.S. GOLD POLICY

No Charge

Contemplated

Washington, June 4.
President Roosevelt, at a press conference to-day, stated that no change in the United States gold policy was contemplated.

When he was questioned regarding rumours concerning the reported intention of the United States, Great Britain and France to make a tri-partite statement of gold policy, President Roosevelt said:

"Not a thing is being planned along that line."

Asked whether any change were contemplated in the United States gold policy, he answered: "Not at all."

He advised his questioners not to worry much about the gold situation.

Denying reports that he planned to abandon his judiciary reforms this session, President Roosevelt declared there was no question but that the Bill would pass. But he indicated that a compromise on the Supreme Court issue might be acceptable to Administration.

Senator Robinson, Democratic leader of the Senate majority, had predicted this compromise and President Roosevelt said the prediction was correct.

The American people, continued the President, wanted the court reforms. They complained that the Supreme Court had adjourned for the summer without deciding several important cases, such as the Tennessee Valley Administration issue, in which the Administration was vitally interested.

He pointed out that while the Supreme Court was entitled to a holiday, the law provides one term annually, beginning in October. The Court had therefore acted on its own volition in declaring its session ended.

President Roosevelt revealed he had completed his legislative recommendations to Congress with the message, yesterday, advocating regional authorities for the preservation of the country's natural wealth and the governing of its distribution.

RISKS FOR PEACE

Urged By Lloyd George

London, June 5.
In a broadcast speech in the series of talks on Responsibilities of Empire Mr. Lloyd George last night said that there was hardly anything which the Empire could not accomplish in the way of dragging the world out of its present condition of muddle and menace if it had a clear aim, a steadfast purpose and the readiness to take reasonable risks in order to avoid a certain catastrophe in the future.

In order that the Empire should exert its full power and authority in international relations, it was necessary that there should be a carefully preconcerted policy between the constituent nations of the Empire.

There was no geographical difficulty in the way of frequent consultations between the various points of the Empire.

Preconcerted policy was more likely to be well thought-out from every aspect and every standpoint and it would give greater confidence, steadfastness and strength to those who directed British foreign policy diplomatically.

There were signs that the most aggressive nations were becoming frightened by the tension they had helped to create. Here, therefore, was another chance. The leadership of nations was vacant. Let the British Empire take it boldly.

No other nation would be welcome to the democratic nations of the world.

ON THE AVENUE

Irving Berlin added a novelty to his long list of successes when he completed a musical number written especially for the Ritz brothers in "On The Avenue," Twentieth Century-Fox musical which is showing at the Queen's, Alhambra and Star Theatres to-day, in which the wild-eyed comedies appear with Dick Powell and Madeline Carroll.

The new song, titled "He Ain't Got Rhythm," not only is a novelty for Berlin, but also provides the Ritz boys a new line of comedy attack.

Alice Faye, George Barbier and Alan Mowbray also appear in "On The Avenue," for which Twentieth Century-Fox production chief Darryl F. Zanuck chose Roy Del Ruth as director.

PENNIES FROM HEAVEN

Bing Crosby's rendering of such songs as "Pennies From Heaven," "So Do I," "One Two Button Your Shoe," and "Let's Call a Heart a Heart," is proving a magnet at the King's Theatre where his new Columbia picture, "Pennies From Heaven," is showing. Madge Evans, little Edith Fellows, and Louis Armstrong and his swing band are also in the film.

Armstrong sings and plays on his hot trumpet a novelty number called "Skele-ton in the Closet," which has also attained a large measure of fame on the air waves. Arthur Johnson and John Burke, each known for a number of hit tunes, wrote the songs for "Pennies from Heaven."

LECTURE "ON MUSIC"

A delightful lecture was given on Friday by Mr. Gerald Sidney at the Diocesan Boys' School.

He spoke about enjoyment of music and about the pleasure that the average person can have by singing if he will try to use his voice as nature intended.

The talk was liberally and excellently illustrated. Mrs. Sanger, who very kindly and ably assisted Mr. Sidney, sang songs in English, German and French, and aroused very genuine enthusiasm by her true clear voice and unaffected way of singing, which set a most excellent example to the boys.

To each song she brought understanding and sympathy so that even those in foreign languages could be enjoyed very easily.

Mr. Sidney played some solos, his introductory remarks adding to everyone's appreciation of them, while the pleasure he gave in two songs at the end shows that his singing days are by no means over, as he modestly says. His simple easy singing was masterly.

The "Gazette" notifies that the figure representing the average opening selling rate for the month of May, 1937, of the Hong Kong and Shanghai Banking Corporation for demand drafts on London is settled at 14.82.

THE CREED OF A TEACHER

Woman's Four Points

A "Teachers' Creed" was enunciated at Cardiff recently by Miss L. L. Swann, of Winchmore Hill, London, in her presidential address to the National Association of Head Teachers.

Teachers believe, she said, that the highest aims of education could be best achieved by a scheme that would:—

Give all education from eleven to fourteen, an equal "secondary education" status;

Provide specialised education from fourteen to sixteen;

Ensure the health and general welfare of children in the school;

Lead children through adequate cultural education to form independent judgments;

Train up an educated democracy.

Miss Swann emphasised the danger of sorting children out at so early an age as eleven for entry into various types of schools for "higher education," according to their attainments.

Her nature is complex," she said. "We all benefit by rubbing shoulder to shoulder with others. It is debatable whether growing boys and girls should be classified according to brain power."

TRAINING FOR CITIZENSHIP

Speaking of the need for a prolonged general education in training up good citizens, Miss Swann said:

"It is essential that all members of a community, particularly of democratic communities, should be able to obtain that measure of general cultural education which enables them to go beyond mass acceptance of matter, to that stage where they start matter, weigh evidence, form opinions of their own, and refuse to become human beings who are the result of mass-production-thought."

Word Wanted For "Chieftainess"

Further discussion of the word "chieftain" took place in Division 2 of the Court of Session, Edinburgh, when the hearing of the petition by Miss Catherine Louise Maclean of Ardour was resumed, states the "Daily Telegraph."

Miss Maclean claims a declaration that she is chieftainess of the Macleans of Ardour, and this is contested by Lt.-Cmdr. E. H. Maclean, of Windover, Bursledon, Hampshire.

Lord Aitchison, the Lord Justice Clerk, said that chief and chieftain were the same thing in one sense, but in registering arms, head or chief might mean just head of the family. There was no instance in the register of chieftain ever being used at all.

Mr. Thomas Innes, for Miss Maclean, said that Mr. McKechnie (for Cmdr. Maclean) and he were agreed that chieftain was a word of less significance than chief.

The Lord Justice Clerk: It has been your insistence on the word chieftain that has been the cause of the action.

Mr. Innes: Chieftainess is the word used.

In reply to Lord Wark, who asked why he objected to the word chief, Mr. Innes said: "It sounds rather like being called Lady Provost. When a woman succeeds to an earldom in her own right you do not call her Earl."

The Lord Justice Clerk said that if Mr. Innes was prepared to give up the word chieftainess they might consult on whether they could agree on a word.

Later Mr. Innes stated that they could not reach an agreement.

Mr. McKechnie said that he would not object to the term "head or chief of the noble or armigerous family of Maclean of Ardour."

The Lord Justice Clerk directed Mr. Innes to put in a formal minute of amendment of the petition and allowed Mr. McKechnie an opportunity of lodging answers.

ROUSING WELCOME

For Duke Of Windsor
And Bride

Milan, June 5.
A remarkable demonstration by a huge crowd of enthusiastic Italians attended the short stay in Milan of the Duke and Duchess of Windsor to-day.

Long before noon the station platforms were jammed by a solid mass of people eager to catch a glimpse of the honeymoon couple, and when the Orient Express drew in, the crowd cheered enthusiastically.

No precautionary measures had been taken by the authorities and the crowd surged in front of the window of the carriage in which the Duke and Duchess were travelling.

Both the honeymooners showed themselves at the window and thanked the crowd for their ovation, which lasted until the train moved out.

According to journalists on the train, it was the first time the Duke had showed himself.

Several distinguished Indians, who had attended the Coronation ceremonies in London, were on the same train.

Arriving at Venice at 6 o'clock yesterday evening, the Duke and Duchess of Windsor left the station with the British Consul and boarded a motorboat which took them through the Grand Canal to a hotel near the Church of St. Mark.

The couple again had an enthusiastic reception and, after a short rest at the hotel, left for Austria.

PREPARATIONS COMPLETE.
Preparations at Castle Wasserburg, where they arrived shortly after midnight, were completed yesterday.

Intensive precautions have been taken by the Carinthian authorities to ensure that the couple are not molested by inquisitive persons who have flocked to the district from all over Austria.

As there is no hotel in the vicinity of the Castle, journalists representing the world's news agencies and newspapers have taken all available accommodation in cottages in the nearby village of Moetsch.

Arrangements have been made to guard the golf course at Dellach, where the Duke is expected to make an early appearance.—*Transocean News Service.*

IMPERIAL CONFERENCE DEVELOPMENTS

Trade Negotiations
With America

London, June 5.

It is evident from lobby discussions of developments in the Imperial Conference that economic affairs, particularly in reference to the trade negotiations with the United States are looming much more importantly than was intended.

The amelioration of Anglo-American economic relations, the labours of the Conference and the declarations made by Mr. Anthony Eden, the Foreign Secretary, to representatives of the Dominions, after his return from Geneva, are discussed in a leading article in the "The Times".

"The Times" proceeds, from the assumption that political and economic tranquillisation must go hand in hand and the negotiations in Washington for a trade treaty between Great Britain and the United States, the Oslo agreement among the Scandinavian countries, the investigations of Premier van Zeeland and his forthcoming visit to President Roosevelt, give rise to the hope that effective steps towards the settlement of economic problems are about to be taken.

AGREEMENT NECESSARY.
The urgent necessity for the settlement of international political questions through an agreement on economic matters, declares "The Times" has long been recognised by Dominion representatives. This is of paramount importance because England could not enter into any economic agreement of this nature without having beforehand consulted the Dominions and ascertained exactly what consequences for them such a treaty is likely to have.

It may be necessary to convene an Empire trade conference in 1938 and a suggestion from the United States, that, for purposes of a trade treaty with the United States, the Empire should be treated as an economic unity, has aroused interest.—*Transocean News Service.*

GENERAL MOLA

Details Of Tragic
Death

Salamanca, June 5.

Details of the tragic death of General Mola, the insurgent commander, show that he was flying to Burgos and was expected at divisional headquarters at about 11 o'clock on Thursday morning.

It was shortly after this hour that the news was received that his plane had crashed near the village of Castle de Peones, south of the road from Irun to Madrid.

Officers who immediately proceeded to the spot found the wrecked plane with the dead bodies of the victims.

Cause of the accident, according to peasant eye-witnesses, seems to have been engine failure, which was followed by an explosion as the plane crashed.

General Mola's funeral took place in Burgos Cathedral at noon yesterday in the presence of leading insurgent officers.

Meanwhile, says a message from Berlin, Herr Hitler has sent a message of condolence to General Franco.

The German newspapers state that along with General Franco, the dead commander was one of the most striking personalities in Spain. Recalling his sympathy with Nazi Germany, one paper says "Germany dips her flag before his coffin."

General Franco has appointed General Francisco Jordana, High Commissioner for Spanish Morocco, to succeed General Davila as commander of the rebel troops on the Biscaya front.—*Transocean News Service.*

POSTHUMOUS HONOUR

Honouring the late General Emilio Mola, commander-in-chief of the Northern Army of the rebel forces in Spain, who was killed with members of his staff in an air crash on Thursday, General Franco, has conferred upon him posthumously, the Grand Cross of San Fernando, the highest decoration of the Spanish Army.—*Transocean News Service.*

Why Glaxo?

1. Because it contains added Vitamin D to ensure dense bone, fine teeth and firm flesh. Cow's milk, and thence ordinary dried milks, made from it, "is a no time a rich source of this vitamin". (British Medical Research Council 1932).

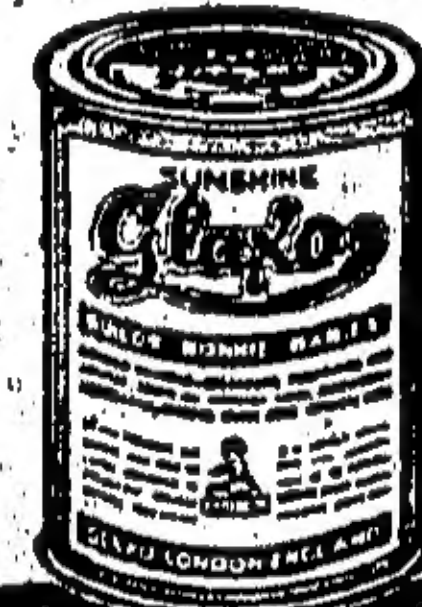

2. Because it contains added iron to prevent nutritional anaemia. Cow's milk is notoriously deficient in iron. "The feeding of infants with milk to which iron has been added, considerably reduces the incidence of nutritional anaemia, raises resistance to infections . . . and improves growth" (Ministry of Health's Circular 1290, 1932)

3. Because Glaxo is close to breast-milk in composition, is easily digested and is safe for your baby in all climates.

CABLES "SWENONIS"

British Proposals Now Under Consideration

London, June 4.

Some days are expected to elapse before definite replies are received to the British proposals that both sides in Spain should indicate extended safety zones for controlling vessels, and that should their immunity be violated the naval staffs of Britain, Germany, France and Italy would consult on appropriate action.

The proposals are only put forward as a basis for discussion and general approval, as the expected agreement can only result from a process of negotiation.

It is understood Germany and Italy are anxious to resume co-operation as soon as possible and the proposals are being closely examined in Rome and Berlin with that end in view.

The only uncertain factor is Russia, where there is some suspicion regarding the second point of the proposals which, it is thought, unduly favours the German thesis.

It is learned that the British proposals for protecting control vessels were discussed between Mr. Anthony Eden and Herr Joachim Von Ribbentrop in London. A further suggestion which is being considered is that control ships should bear some common dis-

tinguishing mark equally visible from the air and sea, thus reducing the risk of incidents such as the bombing of the Deutschland. It is understood that the Admiralty has been asked to suggest some such marks.

British warships which have recently gone into Spanish waters had large red, white and blue markings painted on the gun turrets and in other conspicuous positions.—*Reuter.*

ROYAL NAVY

H.M.S. MALAYA

The battleship Malaya will be commissioned with officers and men from the Revenge and should be ready to leave for the Mediterranean shortly.

The Malaya left Portsmouth on February 3 after large repairs to join the Mediterranean Fleet, but a few days later was in collision with a Dutch steamer about 50 miles off Oporto during thick fog, which obliged her return to Devonport for repairs. Four-fifths of her crew were transferred to H.M.S. Revenge, including Captain F. A. Buckley and Commander J. F. Stevens, and have served with that ship temporarily in the Home Fleet. They will be present in her at the Naval Review.

MEDICAL BRANCH

Surgeon Captain C. F. O. Sankey, O.B.E., who recently completed five years as Assistant to the Medical Director-General, Admiralty, is appointed to the R.N. Hospital, Haslar, as specialist in medicine, in succession to Surgeon Captain W. H. Edgar, O.B.E. The latter officer will join the R.N. Barracks, Portsmouth, as principal medical officer in succession to Surgeon Captain E. Moxon-Browne, who goes to the Mediterranean as Fleet Medical Officer vice Surgeon Captain E. MacEwan, O.B.E.

Surgeon Captain J. H. Burdett, Professor of Medicine at Haslar Hospital, is to join the R.N. Hospital, Chatham, to succeed Surgeon Captain J. G. Danson, who relieves him at Haslar.

DESTROYERS FOR REPAIR

The destroyers Tenados and Thanet have been transferred to dockyard control at Devonport for large repairs. They are two of the 11 survivors of the Admiralty "S" type, of 905 tons and 38 knots speed, built during the War, although these two vessels were not commissioned until 1919. They have been in reserve since 1920-21. A sum of £250,000 for large repairs to destroyers is included in the new Navy Estimates.

ENGINEER CAPTAIN SANDERS
Engineer Commander E. G. Sanders, who has been overseer for the Admiralty at the works of Messrs. J. S. White and Co., Cowes, during the past five years, has been placed on the retired list, on attaining the age limit and takes the rank of engineer captain. He was promoted to engineer commander in 1924, and from 1928 to 1932 was the first engineer officer of the new cruiser Dorsetshire.

NEW RESERVE

The Navy List for May shows that more than 800 members have already been enrolled in the new R.N. Volunteer Supplementary Reserve, the creation of which was announced by the First Lord on October 27 last. Lord Runciman was appointed Honorary Commodore of this new Reserve on February 1. The members hold no rank until they are granted temporary commissions as probationary sub-

lieutenants or appointments as probationary midshipmen, R.N. V.R., on or after mobilization. **GREENWICH HOSPITAL PENSION**

Mr. John Dewstone, Commissioned Gunner, ret'd., has been awarded a Greenwich Hospital pension of £30 a year in the vacancy created by the death of Lieutenant R. J. Jones, ret'd., on February 18.

CHATHAM DOCKYARD

Captain E. K. Boddam-Wheatham, D.S.O., has taken up the duties of Captain of the Dockyard, Deputy Superintendent, and King's Harbour Master at Chatham. He succeeds Captain C. G. Stuart, D.S.O., D.S.C., who is going to South Africa to take charge of the Dockyard at Simonstown.

COMPLETION OF THE IMOGEN

H.M.S. Imogen, built by Messrs. Hawthorn, Leslie, and Co. at Hebburn, will leave the Tyne shortly for Chatham, where she is to complete to full crew for service in the 3rd Destroyer Flotilla in place of the Anthony. Lieutenant-Commander L. F. Skipwith, from the latter ship, will transfer to the Imogen in command. She is the second of the eight destroyers of the Intrepid class built under the 1935 construction programme.

ENGINEER CAPTAIN SIMS

Engineer Commander S. H. Sims, M.V.O., O.B.E., has been placed on the retired list with the rank of engineer captain, on attaining the age limit.

LIGHT TANK CAVALRY

The New Model

In this year's training the 9th Lancers at Tidworth are carrying out trials towards determining the definite organization of the cavalry brigades. These will all be light tank regiments, and in the organization which is to be tested this year the regiment comprises three squadrons. Each of these has an administrative element and a fighting element, the latter consisting of three troops. Each troop is to consist of five light tanks and two tracked carriers with armour in front, although this year the latter will be represented by trucks. Squadron headquarters will have three light tanks, in addition to a carrier, a truck, and several motor-cycles.

The regiment will also have a headquarters squadron, comprising an administrative element and an anti-tank troop of four 2-pounder guns. While the latter will provide the main protection against hostile armoured fighting vehicles, it will be supplemented by the anti-tank rifles, with which every troop will be equipped.

The general effect of the new organization is that the regiment will include two kinds of mechanized cavalry—those who fight mounted, in light tanks, thus reviving the historic form of cavalry action; and those who are borne in armoured carriers from which they dismount when needed for action.

ANOTHER PLEA FOR CLEMENCY

Charcoal Murder Case Sequel

"I have received advance copies of the petition from the solicitors for the defence and the petition will be considered," said the Hon. Mr. R. A. C. North, Colonial Secretary, in a conversation with a representative of "The Daily Press" yesterday regarding the last minute effort to save the life of Chiu Yuk-fai, condemned to death in the "Charcoal Murder Case." The date of the execution, originally fixed for Friday next, will therefore most probably be postponed.

Chiu Yuk-fai, found guilty of the murder of Cheung Sam-ku, female, at No. 323, Reclamation Street, was sentenced to death on April 30, last. Following this, a petition bearing the signature of 3,655 persons, was presented to His Excellency the Officer Administering the Government, pleading for reconsideration and drawing special attention to the jury's recommendation to mercy sent a fortnight after the trial. The first petition was rejected.

The present petitioners humbly submit that "it is reasonable to assume that... the accused, so far from being actuated by malice, was at the critical moment incapable of forming any clear thought or intent; that he had one logical or calculating moment and that he was a prey to the most elemental emotions actuated by great shock and by impending catastrophe." "Your petitioners," the document says later, "are most profoundly impressed by the unprecedented action taken by the Jury in disclosing details of the grounds of their finding, leaving no doubt of the very grave and serious difficulty experienced by the Jury in coming to any definite conclusion."

PRINTERS AND PUBLISHERS

Ordinance To Be Amended

The "Gazette" contains the draft of an Ordinance to amend further the Printers and Publishers Ordinance, 1927.

It is explained that Section 13 of the Printers and Publishers Ordinance, 1888 (No. 4 of 1888) required that the printer or publisher of every newspaper should enter into a bond, conditioned for the payment of any fine or penalty imposed on any conviction for libel, and further conditioned for the payment of any damages and costs in any action for libel published in the newspaper.

The 1888 Ordinance was repealed and replaced by the Printers and Publishers Ordinance, 1927 (No. 25 of 1927) which however did not reproduce the provisions of section 13 of the repealed Ordinance or any equivalent thereof, with the result (see Hong Kong Hansard for 1929 p. 316) that a number of irresponsible newspapers with libellous and blackmailing tendencies appeared, disappearing again upon the sign of any trouble.

Consequently by Ordinance No. 1 of 1930 (since amended by Ordinance No. 3 of 1933), a new section 1A was introduced into the 1927 Ordinance requiring a deposit of \$3,000 unless the Registrar was prepared to accept a bond in lieu thereof.

Since then bonds have usually been accepted but, with the daily ebb and flow of population across the Colony's borders, such bonds are difficult to enforce especially in the cases in which it is most necessary to enforce them.

The object of this Bill is to enable the Registrar in his discretion to demand a deposit even where a bond has been previously accepted.

ECLIPSE OF THE SUN

Although it will not be visible in Hong Kong, an eclipse of the sun, of the longest duration in 1,200 years, is due on Wednesday. The eclipse, however, will be observed over an area extending from the South Seas across the Pacific to California and Mexico.

Totally of the eclipse will be 7 minutes, 4 seconds, the longest period that the sun has been blotted out for 1,200 years.

Four expeditions have been organized to observe the eclipse, three in the Pacific and one in Peru.

WEDDING BELLS

Loveless-Cooper

St. John's Cathedral was crowded on Saturday afternoon for the wedding of Miss Florence Noreen Cooper, elder daughter of the late Mr. W.A.J. Cooper (who was in the Crown Lands and Survey Office of Hong Kong) and Mrs. Cooper, and Mr. Edward William Loveless (of Messrs. Dodwell and Company), the youngest son of Mr. and Mrs. Charles Loveless of London.

The Cathedral was beautifully decorated, with clusters of white syringa and carnations on every pew, while masses of white lotus lilies were grouped in the chancel. The ceremony was performed by Rev. H.W. Barnes, and the bride was given away by Mr. B.H. Collis Hallows, of the Crown Lands and Survey of Hong Kong.

Mr. J. Redman carried out the duties of best man.

RADIANT BRIDE

The bride looked radiantly lovely in an exquisite gown of white satin, closely fitting and girdled with a narrow cord of satin, knotted in front, and falling to the hem. The back of the dress and the long narrow sleeves were trimmed with tiny buttons of pearl. The high neck was finished with narrow cords of satin and a very long train was worn, on which were sprays of real orange blossom sent by Mrs. R. Danby. She wore her mother's beautiful wedding veil of Brussels lace and a coronet of orange blossom, and carried a shower bouquet of white tube roses, and maidenhair fern. The bridesmaid was her sister, Miss Pat Cooper, who looked charming in a dress of apple-green organdie, with a wide, flared skirt and puffed sleeves, and a dainty little close fitting hat of organdie trimmed with a spray of dark-centered pale poppies. She carried a sheaf of flame coloured gladioli.

The bride's mother was most becomingly gowned in very dark navy blue French lace with a picture hat and accessories of the same shade. This dress as well as those worn by the bride and bridesmaid was designed by Madame Chiffon.

THE TOAST

After the wedding a reception was held in the Jacobean Room of the Hong Kong Hotel and was attended by a great number of friends. A huge wedding bell of matted white roses hung from the ceiling and the band of the Hong Kong Hotel played in the verandah outside.

A very charming speech was made by Mr. B. H. Collis Hallows who proposed the toast of the newly-weds. He said:—

Mrs. Cooper, Ladies and gentlemen,

It is with very great pleasure indeed that I rise to propose the health of the bride and bridegroom. I say pleasure, but with it fear is mixed at the thought of having to make a speech, for I feel sure you will not believe me when I say this is the first time I have ever given anyone away (laughter).

I think you will agree with me that few brides have looked as lovely and radiantly happy as Noreen does. I have known her for many years and her parents too, so it is a great pleasure for me to be with her on this happy day.

I do not know the bridegroom so well so I cannot tell you anything of his past, but from what I have seen of him I think Noreen is a lucky girl. I hope they will both be very happy indeed, and though life is not made up of wedding days and champagne, I hope if the clouds come their deep affection for each other will make them see the silver lining.

I have great pleasure in asking you to drink to the health of the bride and bridegroom.

The toast to the bridesmaid was proposed by Mr. Redman, who also read many cables of good-wishes from friends and relations overseas.

HONEYMOON AT REPULSE BAY
For her going-away dress the bride wore a charming costume of mauve crepe, with shoes, gloves, and hat of white. A crowd of well-wishers assembled on the steps of the Hotel to see them depart. Fire-crackers were let off with startling effect, and the air was full of smoke, confetti and silver horseshoes, when the happy couple left for the honeymoon, which will be spent at Repulse Bay.

ROTARY CLUB

Mr. E. C. Carter, Secretary-General of the Institute of Pacific Relations, who is addressing a meeting of the League of Nations Society on Tuesday, will also speak at the weekly meeting of the Rotary Club to-morrow.

EUROPEAN CHILD'S DEATH

The funeral of Joan Read, five-year-old daughter of Mr. and Mrs. R. O. Read, of Royal Naval Dockyard, took place at the Protestant Cemetery on Saturday afternoon, the Rev. J. D. McLean officiating at the graveside.

Committee To Look Into Matter

It is learned from a reliable source that the following have been appointed to investigate the means of control of leprosy in the Colony:—

Dr. D. J. Valentine, Deputy Director of Medical and Sanitary Services, Chairman; Mr. G. S. Kennedy-Skipiton, District Officer, South.

An architect from the P.W.D. An assessor from the P.W.D.

The Committee will choose a suitable site for a new Government Leprosarium and it is almost certain that the new institution will be built in some secluded part of the New Territories, or a small island to the south of Hong Kong.

In an interview, Dr. D. J. Valentine said that the public has a misguided sense of horror of leprosy, probably arising from Biblical reference to leprosy.

Every effort, he said, should be made to educate the public into the knowledge that leprosy is not the terrible affliction it has been made out to be and that there is no need to shun lepers or drive them into hiding.

When the new institution is built, all inmates will be under Government control and will come within any measures which may be decided upon to enforce a system of segregation in the Colony.

NEW DEAN FOR CATHEDRAL

Rev. Leonard Wilson

The Bishop of Hong Kong announces that the Rev. Leonard Wilson has accepted the invitation to come to the Colony as Dean of the Cathedral and Archdeacon of Hong Kong.

Mr. Wilson who is the present Vicar of St. Andrew's Church, Roker, Sunderland, has been in Persia and then in Egypt since he left Oxford University. He was curate to the present Bishop of Wellington at Coventry Cathedral for several years when the Bishop (the Rt. Rev. H. St. B. Holland) was Chairman of the Victoria Diocesan Association and Chief Commissary to the last Bishop of Hong Kong. Later he became curate of St. Margaret's Church, Durham, but was there for only a short time before the Bishop moved him to Eighteen Banks, a mining village on the outskirts of Gateshead. In 1933, Mr. Wilson became Vicar of St. Andrew's, Roker, and thus has been for the last four years in charge of one of the largest congregations in the north of England.

Mr. Wilson is 40 years old and he hopes to arrive with Mrs. Wilson and their two young children in the early months of 1938.

A REASSURANCE FOR CHINA

Mr. Eden has had many useful conversations with foreign statesmen visiting London during the past few weeks, and probably not the least useful was that which he had with Dr. Kung, China's delegate to the Coronation.

The general situation in the Far East was discussed and agreed to be more encouraging, and Mr. Eden assured Dr. Kung that any efforts which the British Government might be able to make to further an improvement in international relations in the Far East would take full account of the interests of all the nations concerned.

The reference here is clearly to the projected Anglo-Japanese discussions of measures for the economic rehabilitation of China. These discussions were proposed by the Japanese, and though definite arrangements for meetings have not yet been made, nor is it known what the Japanese will suggest, it appears that the proposals are for conversations about China's economic future in which China herself has not been invited to take part.

One does not impute any sinister intentions to the Japanese—it is believed, indeed, that they are in a mood to deal less truculently with China than they have done in the past,—but it is inevitable that China should be nervous about these discussions and Mr. Eden's reassurance is timely.

During the week-end the police have been successful in solving three of the many armed robberies which seemed to be common occurrence recently. No fewer than ten persons, believed to be of the same gang, have been rounded up. Two were arrested in connection with the hold-up at the Kam Wah Cafe, No. 1237, Canton Road where two men entered armed with a revolver and knife and made away with \$100.

Four were detained for the robbery committed at the Sheung Sun Cafe on June 1 when five men armed with a revolver and a dagger bolted with \$125 from the till.

Another four who were believed to have robbed a 54-year-old widow, If Foon, residing at an unnumbered hut at Wong Chuk Hung Village on May 9 of \$130, are in custody.

Charges will be framed against these men in due course.

HIGHWAY ROBBERY
A highway robbery was reported to the police by an amah, servant of Mr. Sayers, of the F.W.D., who was the victim of the incident.

Full details of the occurrence have not yet been disclosed by the police who are now still carrying on investigations, but it is believed that considerable force was used. A sum of \$7.35 and a silver ring were reported lost.

ROCKEFELLER ESTATE

Radical Change In Third Codicil

White Plains, New Jersey, June 5.

The will of the late Mr. John D. Rockefeller disposing of estate estimated at twenty-five million dollars was filed at Surrogate's Court, West Chester County.

The will had three codicils, first two of which made no special alterations but the last, dated October, 1934, made radical change as to the disposition of the estate.

Under the original will the entire residuary estate was left in equal shares to Laura Spellman Rockefeller Memorial and Mr. John D. Rockefeller, junior. Under the codicil the entire residuary is left to trustees who are empowered to pay income to his grand-daughter, more of her descendants or the Rockefeller Institute for Medical Research. Regarding the exclusion of other grand-children under the codicil Mr. Rockefeller states he felt it was unwise to place upon the children the responsibility of administering substantial sums and for that purpose he made large gifts to them.

COMPARATIVE SMALLNESS OF ESTATE
New York, June 5.

The Internal Revenue authorities at Washington estimate that maximum estate taxes amounting to \$15,112 may be levied if all of Rockefeller's estate proves taxable. The comparative smallness of the estate is attributed to Mr. Rockefeller's philanthropic gifts and the transfer of holdings to his son. The entire estate is left in trust during the lifetime of Mrs. Decuevas, after which income from the estate goes to descendants, if any, otherwise to the Rockefeller Institute for Medical Research.

PRISON CONDITIONS DISCUSSED

Home Secretary Speaks Of Need Of Modernising

London, June 5.

Prison conditions were discussed in the House of Commons and Sir Samuel Hoare, making his first speech in the House as Home Secretary said the chief problem to-day was the young offender and prevention of recidivism. There were two methods which might be advocated. The first was that of making prison discipline so strict and conditions so inhuman that you might hope prisoners, after one experience, would be deterred from running the risk of going back to prison. In actual practice they had found that the method had not succeeded in reducing recidivism. The other method was an attempt at the evocation of lost self-respect and at character building. The experience along these lines showed that as the prison administration had become more humane the number of habitual criminals had been lower.

For some little time the prison administration had taken the direction of trying an experiment of appealing to prisoners to their better instincts and, most important of all of seeking to give them interest in the things that really mattered in the world. They had adopted the principle of giving privileges which were lost by bad behaviour rather than by holding out indefinite hope of them as a reward of good behaviour. He was able to announce that so far as Prison Commissioners and the

Home Office could judge that experiment had succeeded.

It been so successful that it had been decided to extend its scope to three convict prisons, namely, Chelmsford, Parkhurst and Dartmoor by giving the prisoners opportunity of earning wages which might be spent upon minor relaxations, such as cigarettes.

The Home Secretary also spoke of the need of modernising many prisons which were antiquated in character having been built generations ago when ideas of prison administration were very different.

Following a debate in which a number of criticisms and suggestions were advanced the Under Secretary, Mr. M. G. Geoffrey Lloyd said he was authorised to state the Home Office would go very carefully into them all. He claimed there was a very satisfactory decline in numbers of the prison population. The help of psychologists which members had advocated was being increasingly enlisted particularly in respect of vocational guidance for first offenders.

Mr. Geoffrey Lloyd amused the House by instancing the case of a boy offender who showed intellectual ability. He wrote an essay in which he revealed his ambition to become Prime Minister. The decision of experts was, the Minister added, that despite this ambition he ought to make an excellent rating surveyor.—

SITUATION IN SPAIN

Safety Of Foreign Warships

BRITISH PROPOSALS

London, June 5.

It is authoritatively stated that the British proposals for ensuring the safety of foreign warships on control duty round Spain have been communicated to the interested Powers in the shape of a questionnaire.

Political circles confirm that the general contents of the proposals correspond to the version given in the newspapers but that so long as the proposals have not entered the phase of discussion they must be regarded as having a provisional character.

The proposals have also been submitted to the Valencia and Salamanca Governments.

Informing quarters in London state that there is no indication that the Soviet will reject the proposals and that no steps have hitherto been taken to fill in the gap in control of Spain by the withdrawal of Germany and Italy.

RELEASE OF BRITONS

Bilbao, June 5.

Four Britishers in the hands of General Franco's forces are to be released in exchange for four Italians held by the Republicans on the Eiscaye front.

Exchange of the prisoners was sanctioned to-day by the Basque Government, which states that the four Englishmen are journalists.

Indication that the insurgents will strike next on the Guadarrama front is contained in a report stating that they are massing large bodies of troops in the mountains in that sector.

The rebels are believed to be particularly strong in aircraft.

LULL IN FRONTS

Reports from the various fronts indicate that yesterday passed off quietly, the heavy fighting on the Basque and Madrid sectors giving way to a lull.

In the Basque sector, however, the insurgents are reported to have bombed concentrations of loyalist reserves.

CATALAN IMPASSE

Perpignan, June 5.

That the internal situation in Catalonia is by no means calm is indicated by messages broadcast over various radio stations to-day.

Speaking of the attempts to form a new Catalan Government, the anarchist-syndicalist station at Barcelona broadcast a statement that they will support any solution of the present impasse as long as military victory was guaranteed but that there could never be any agreement with the Government's "bourgeois" policy.

The Catalan Separatist station announced that Catalonia would never submit to the Government, and appealed to the latter to respect Catalan autonomy.

ALLEGED STATEMENT

The paper adds that M. Delbos hoped there would be no repetition of the incident.

Senor del Vayo is expected to return to Valencia to-day.

MUCH SPECULATION AROUSED

London, June 5.

Much speculation has been aroused here by the publication of reports of conversations held yesterday between the British Ambassador in Berlin, Sir Neville Henderson, and the German Foreign Minister, Baron von Neurath and between the British Ambassador in Rome, Sir Eric Drummond, and the Italian Foreign Minister, Count Ciano.

This morning's newspapers give much prominence to the conversations and speculate as to the attitude Italy and Germany are likely to adopt towards the British proposals for protection of warships engaged in control duties in Spanish waters.

The Berlin correspondent of "The Times" cables that the German Government has the British proposals in writing, and that the general reaction in Berlin is favourable.

The German Government, says the correspondent, has itself expressed the hope that an agreement will be reached without delay.

Nevertheless it is thought that Germany will not accept the British proposals without some alteration.

Assuming that Baron von Neurath has already made a declaration to this effect to the British Ambassador and that this reply has to be considered and discussed in London and Paris, it would be impossible for an agreement to be reached before the end of this week.

FOUR-POWER CONSULTATION

"The Times" correspondent continues to state that the proposal for a four-power consultation in the event of attack on any vessels engaged in control duties is of real significance.

Germany, he says, reserves to herself the right of self-defence and explicitly demands freedom to do this before other Powers are consulted.

The Rome correspondent of "The Times" reports that the general belief in the Italian capital is that Italy's answer is not to be expected until an agreement on the matter has been reached between Berlin and Rome.

RIGHT TO DEFEND

The Berlin correspondent of the "Daily Telegraph" emphasises that in authoritative German quarters there is "warm sympathy" for the British proposals, but that Germany insists on retaining the right to defend herself if her vessels are attacked without waiting for the result of four-power deliberations.

On the other hand, great scepticism is felt in Germany, as to the value of any assurances given by the Valencia Government.

The Rome correspondent of the "Morning Post" declares that the British proposals meet with a favourable reception in Italy, where it is felt that the difficulties are of a purely technical nature, that is to say, not political, and hence in all probability will be very quickly overcome.

REPLIES FROM FRANCE AND GERMANY

London, June 5.

It is authoritatively announced that the French and German replies to the British proposals for return of Germany and Italy to the Non-Intervention Committee, have now arrived in London, but that nothing is yet known regarding the Italian reply.

According to official circles, the British proposals are regarded in Berlin as a suitable basis for final agreement.

Informing circles give the impression that the French Government put forward several new suggestions which are apparently creating unexpected difficulties.

Meanwhile, in Berlin the arrival of the German Ambassador in London, Herr Joachim von Ribbentrop, is awaited hourly.

It is stated that Herr Ribbentrop, who originally intended to start from London at noon to-day, postponed his departure at the last moment owing to an important conversation he had with the Foreign Secretary, Mr. Anthony Eden.

Political circles in Berlin believe that Herr von Ribbentrop will have an interview with Herr Hitler on Monday.

Herr von Ribbentrop will stay in Berlin only for a short while.

—*Transocean News Service.*

ATTITUDE OF GERMANY

Berlin, June 5.

Germany's attitude to the British control proposals is understood to be insistence on one hundred per cent. safety of her warships. Official circles state that Germany must insist that fleet commanders in the international control units be entitled without previously consulting colleagues of other units to take necessary measures of defence instantaneously and to decide retaliatory action against international lawbreakers.

SPIRITED REPLY TO CHARGES

Treatment Of War Prisoners

Salamanca, June 5.

A spirited reply to charges made by the Paris newspaper "Humanite" and the London journal, the "Daily Herald," that Republican prisoners taken by the Spanish insurgents, including Englishmen, were half starved, was made in a broadcast over Radio Salamanca last night.

The reports in question were published following release by General Franco of 45 members of the International Brigade.

Both newspapers asserted that when released by the insurgents, the prisoners were in a half-starved state.

The "Daily Herald" based its charges on statements made by two of the released men, one a Canadian named Bert Levy and the other an Englishman named Archie Williams.

Last night's broadcast declared that both men, before leaving Spanish soil, voluntarily thanked the insurgent authorities for the exemplary treatment they had received while in captivity.

MONEY IN PRISON

Both men, it is alleged, had received new suits and the sum of 500 francs in cash while they were in prison.

The broadcast concluded with the statement that General Franco had just released another fifteen foreign prisoners.

ITALIAN REPLY

The Italian reply to the British control proposals is understood will be handed over early next week. It is believed to be in acceptance of the principle, with reservation in regard to technical details.

RIBBENTROP DUE IN BERLIN

Berlin, June 5.

The German Ambassador in London, Herr Joachim von Ribbentrop, will probably arrive in Berlin to-morrow to participate in the discussions on the British proposals for protection of warships participating in the Spanish control plan.

Competent quarters state that reception of the proposals in Germany is friendly and sympathetic.

Comments in the German press to-night make it clear that Germany is not willing to run any risks of repetition of the Deutschland affair.

The papers say that the idea of a conference of naval staffs may be useful in cases of incidents, but that if German warships are attacked by Bolshevik planes, her commanders certainly will not be able to wait to report the attack until a conference is held.

From Rome it is reported that the Italian Government is studying the British proposals.

It is understood that Italy and Germany will consult together before replying.

—*Reuter.*

ITALY'S AGREEMENT

Rome, June 5.

It was learned late to-night that Count Ciano, received Sir Eric Drummond to-day and communicated the Italian reply to the British proposals. They accept in principle the first two points, namely, that Italy is prepared to resume co-operation with the Non-Intervention Committee and agrees to a suggestion to extend the system of safety zones in Spanish waters.

Italy, however, makes reservations on the third point, namely, immediate consultation between four Powers engaged in control in the event of a future attack on one of them, expressing doubt whether it could be carried out.

ITALO-GERMAN ALLIANCE

Reports Discounted

FOREIGN POLICY AGREEMENT

London, June 5.

Reference in the semi-official Rome newspaper, "Giornale D'Italia," to a "defensive understanding" between Germany and Italy, has led to a report that the two powers have formed a new defensive entente.

A message from Rome, however, explains that the reference does not mean that any fresh development has taken place since the arrival of the German Minister for Defence, Marshal von Blomberg, in Rome.

According to well-informed circles in the Italian capital it is stated it is rather an allusion to the Rome-Berlin axis already existing, which possesses a defence aspect.

—*Reuter.*

"ALARMIST" REPORTS

Rome, June 5.

Alarmist reports published by foreign newspapers, which are trying to connect the visit of the German Defence Minister, Marshal von Blomberg, to Italy with the imminent conclusion of a military alliance between the two countries, are denied in well-informed quarters here.

It is pointed out that when Marshal von Blomberg's visit is over, an official communique will be issued as is customary after all official visits.

It is also emphasised that since last autumn an agreement in principle on all questions of foreign policy has existed between Italy and Germany, which naturally extends to military problems.

It is, however, stressed that such co-operation is in no way equivalent to an alliance.

After having inspected the principal buildings of the Fascist Party during a sightseeing tour of the capital this morning, Marshal Blomberg left Rome for Naples by train.

In the afternoon he was the guest of the Crown Prince and in the evening he attended a Ball at the Royal Palace.

On Monday he will board the Italian battleship Duce d'Acosta, from which he will watch a review of a number of units of the Italian Navy.

BRITAIN'S WARS ARE RHODESIA'S

London, June 5.

Speaking last night at a dinner in his honour, Mr. G. M. Higgins, Prime Minister of Southern Rhodesia, said there was no necessity for the representatives of Southern Rhodesia to discuss such matters as Imperial defence.

They had such faith in the democracy of this country that they were convinced that the British Government would never be allowed to go to war for a cause that Rhodesia could not wholeheartedly subscribe to and in that faith Rhodesia would do everything it could to be in a state of preparedness and to assist to the limit of its capacity.

As far as war was concerned, Britain's wars were Rhodesia's wars.

The underlying policy of the Government of Southern Rhodesia, he added, would be to develop the native to the utmost of his capacity. Referring to material prospects, he said that extraordinary progress had been made during the last ten years and to-day he believed that there was no more prosperous corner of the world.

LOCAL BASEBALL SURPRISE

A surprise was caused among local baseball fans yesterday morning at Caroline Hill when the Volunteers were defeated by the Nippon team by 11 runs to three. The Nippon won the toss and batted first and in the first innings they secured seven runs.

Bowen pitched very poorly and it was mainly through this that the Nipponese were able to secure a lead at the commencement of the game.

Some very fine pitching was done by Amazaka and in the last innings when he was taken off the mound, the Volunteers were able to secure two runs.

After the fourth innings Pereira relieved Bowen and was fairly successful.

In a match prior to the one between the Nippons and the Volunteers, the Chinese Baseball Club defeated the Filipino Club by 5 runs the score being 9 runs to 4. Maty Chang pitched for the Chinese team and was very successful.

DOCK WORKERS HONOUR RETIRING MANAGER

(Continued from Page 1)

"DEPRESSION" ENTERPRISE

It is a very well known fact that during the depression, many factories and firms in the Colony, on the score of curtailment of expenses, reduced their staffs. Mr. Greig did the contrary, devoting most of his time in the development of the dockyard, such as the building of rail roads to facilitate the transport throughout the dockyard, the purchase of additional machinery, the erection of workshops etc. too numerous for me to mention. Had it not been for this, many workmen would have been rendered jobless.

On behalf of the Association, I beg to express thanks to Mrs. Greig who has so kindly consented to be present to distribute the prizes.

"BON VOYAGE"

It now remains for me on behalf of the Chinese staff and the Chinese employees as a whole to wish Mr. and Mrs. Greig bon-voyage and that they may live the rest of their lives happily together for very many years to come. In the meantime I beg to request that Mr. Greig will kindly accept a souvenir in the form of an eulogistic embroidered scroll in black wood frame as a mark of remembrance from the Chinese employees.

MR. GREIG'S REPLY

Mr. Greig said:—
Ladies and Gentlemen—I find it very difficult to suitably reply to your chairman's kind and, I am afraid, somewhat flattering speech, but can only assure you all that your remarks are very much appreciated by us.

Ever since, as a very young man, I was put in charge of dockyard staff and workmen both in England and here, I have held the opinion that a manager could not be successful even in the very best equipped establishment unless he, in addition to being the master, is also the friend and adviser of those under his charge, and in all his dealings is, honest, just, and considerate towards his men.

Your kind reference to my efforts to improve our dockyard are much appreciated. During my long stay with you, and including my short visits to my home, the Talkoo Dockyard has never been out of my thoughts, and wherever I have gone I have looked, for machinery and tools that would keep our yard in a very highly efficient state.

Talkoo Dockyard has had periods of depression and happy periods and I can assure you all that during the bad times I have but spurred myself to greater efforts to get work for you—and I rejoice that I shall be leaving Hong Kong when the yard has, a fair quantity of work in hand, especially in the way of large vessels building.

I look with confidence to these ships, by our combined efforts, being excellent jobs and bringing further work to our yard.

THANKS RETURNED

On behalf of my wife I thank you most sincerely for your great kindness in asking her to present the prizes to-day and I am sure that she will always remember this afternoon's engagement.

It only remains for me, however inadequately, to convey my feeling to you in words and to thank you for this beautiful embroidered scroll.

I shall always treasure it and show it to my children and friends as a memento and symbol of mutual respect and regard between the Dockyard Chinese Staff, workmen and myself. I have spent more than half my life working with you and I leave with regrets but am happy to know that I have retained the respect of the staff and workmen of Talkoo to the end, without which all my work would have been to me a failure.

Ladies and Gentlemen, I thank you all very much and will say "good-bye."

"DIZZY" DEAN REINSTATED

New York, June 4. The President of the National League, Mr. Charlie Frick, has lifted the suspension on "Dizzy" Dean, St. Louis pitching star.

Dean, who was alleged to have slandered the officials and umpires of the League, was placed under indefinite suspension two days ago. But the suspension did not stick. St. Louis needs him badly; and he is one of the highest paid men in baseball.

He still refuses to sign any statement backing up his verbal denials of alleged derogatory remarks.—*Reuter.*

With a lead of 2 matches to nil, Czechoslovakia is almost assured of passing into the next round. The Czechs were one up when Roderick Menzel, who is making a "come-back" this season, after announcing his retirement, defeated Christian Boususs without the loss of a set.

Ladislav Hecht won the second singles match when he defeated Destremereau, also without conceding a set.—*Reuter's Bulletin Service.*

RUGBY BLUE MARRIED

In King's College Chapel

The wedding took place in King's College Chapel, Aberdeen, of Mr. James Ferguson Davie, a former Aberdeen University Rugby Blue, and Miss Reta Murray, for a number of years an assistant in the South Aberdeen Unionist Association's offices.

Mr. Davie, who resides at 18 Rubislaw Terrace, Aberdeen, is a son of the late Mr. and Mrs. James P. Davie, China. The bride, a daughter of Mr. and Mrs. P. Murray, 46 Mid-Stock Road, Aberdeen, was given away by Mr. John Cranna, secretary of the South Aberdeen Unionist Association.

The bride's gown was of silver lame-de-lune, high to the neck, with a Peter Pan collar and long, tight-fitting sleeves. She had a silk net veil trimmed with silver, and a halo of silver with orange blossom and pearls. She carried a sheaf of arum lilies.

Her bridesmaids were Miss Norma Murray, her sister; Miss Kathleen Ferguson, Fyvie; and Miss Helen Ferguson, Aberdeen, cousins of the bridegroom.

Mr. Norman S. F. Davie, brother of the bridegroom, was best man. The Rev. John McIlwraith officiated, assisted by the Rev. James Muir.

IMPERIAL CONFERENCE

London, June 4. The principal delegates to the Imperial Conference held a further meeting this morning with the Prime Minister, Mr. Chamberlain, in the chair. The Foreign Secretary, Mr. Eden made a statement relating to the latest developments of the Spanish situation. The delegates then proceeded to discuss questions connected with League reform. The meeting was adjourned until Monday morning.—*British Wireless.*

He Admires A Pickpocket

It was so cleverly done that he had nothing but admiration for the man who did it, said Sir Ian Colquhoun, Bt., convener of Dumbar-tonshire, when telling Dumbar-ton County Council how his pocket was picked while in London, states the "Bulletin."

Sir Ian lost his pocket book and its contents, and although he could not identify the man who picked his pocket, he knows when it was done.

When lighting a cigarette a man approached and asked for a light. Immediately after the man, on the pretence of knocking some cigarette ash from Sir Ian's left coat lapel, took his pocket book from the inside pocket of the jacket on the right side. Sir Ian was transacting County Council business in London.

SHORTAGE OF ENGINEERS

Problem For Ship Owners

"The Daily Press" learns that as the result of the improvement in the shipping trade a shortage of marine engineers is felt in the China Coast. One of the chief causes of this shortage, it is stated, is that of recent years there have been comparatively few young engineers coming out from England where, it is understood, the shortage is even more serious than here.

Two of the leading shipping

companies here have been asking for young engineers and it is feared that the shortage will become even more acute in the future.

At the moment, no serious inconvenience has been experienced by the major shipping firms in China, although some of them are in need of engineers.

There are men on the books of the China Officers Guild, who are out of employment, but they are, in most cases, rather elderly and to place them in junior positions would mean that by the time they have attained sufficient seniority with the company to take over executive positions, they would be far beyond the age desirable.

The result is that these men, for the most part, are employed temporarily and are forced to make way as soon as a younger man becomes available.
